

Product Construction & Features

- Preliminary-zone D# is made of 6063-T5 hard aluminum alloy (Standards: GB5237.3.2004).
- Thickness is 18mm. Interlocking design leads to easy installation and is convenient for cleaning and maintenance.
- Combining BCF 6.6 nylon dustproof wipers with slip-resistant rubber scrape dirt from sight effectively.
- Installed in grooves leads to better performance and is safer.
- Durable wipers are moistureproof, noiseproof, slip-resistant, heat-resistant, cold-resistant, anti-corrosive and anti-static.
- Various wiper materials and colors are available. Stylish appearance is eye-catching improves the entire image of your building.

产品结构:

- 采用6063-T5硬质铝合金材料制成，执行标准(GB5237.3.2004)。
- 地垫高度18mm，采用互扣方式组合，便于安装及清洁保养。
- 配合防滑橡胶条及6.6尼龙防尘防污地垫组合使用，使地垫发挥更有效的除尘防滑功能。
- 建议铺设于凹槽内效果更佳，更安全。
- 专业设计防噪音，防腐处理层，具有抗严寒耐高温，防静电，防滑耐磨，承受力强。
- 配以多款防污地垫面料选择，更具时尚风格，体现第一步整体形象。
